

EGATEC A/S søger søger Automation Engineer til vores Engineering afdeling i Odense.

Din baggrund kan f.eks. være Automationsteknolog, El-ingenør, Robotingeniør, Programmør, eller maskinmester med kendskab til industriel programmering.

Gerne med kendskab til programmering indenfor

PLC: B&R, Beckhoff eller Siemens, herunder også Servo & Vision.

Integration med Roboter: f.eks. ABB, KUKA eller lign.

- Du kan være nyuddannet eller med flere års erfaring
- Behersker et eller flere fremmedsprog da vi har kunder og leverandører hele verden
- Trives både med at arbejde selvstændigt samt at samarbejde i tværfaglige projektteams
- Har god teknisk/mekatronisk kendskab med forståelse for maskinindustrien
- Har godt kendskab til relevante programmeringsværktøjer samt Office pakken

EGATEC A/S er specialister i end-of-line løsninger, samt håndterings og pakkeløsninger, der integrerer maskiner, robotter, automation og vision. EGATEC A/S er en virksomhed som siden 2003 med succes, har leveret mere end 400 løsninger og projekter i ind & udland. Med et øget fokus på internationale projekter oplever vi stor vækst på vores eksportmarkeder indenfor pakkemaskiner og end-of-line løsninger.

Arbejdsområder

- Programmering af PLC, HMI og servosystemer, primært i B&R, Beckhoff og Siemens
- Integration og programmering af robotter f.eks. COMAU og Kassow robotter eller hvilken der passer til den specifikke opgave
- Indkøring, test og aflevering af anlæg samt efterfølgende support ved vores kunder
- Programmering, integration af løsninger for overordnet dataudveksling samt datalogi
- Udarbejdelse af dokumentation og manualer

Der kan være flere indgangsvinkler og flere karriere veje ind hos EGATEC. For den rutinerede ansøger vil man få mulighed for at arbejde med udfordrende programmeringsopgaver af større projekter i ind- & udland.

For den nyuddannede ansøger vil vi sørge for et solidt introforløb, bl.a. har vi mulighed for at sammensætte "trainee - forløb" i virksomheden – så man kommer rundt om forskellige PLC, robot, udviklings-, programmerings-, test-, opgaver.

Vi tilbyder og forventer en åben og uformel stemning, et godt arbejdsklima samt fleksible arbejdsforhold – som vi sammen er ansvarlige for. – Til dette ønsker vi, at du kommer med godt humør og en god indstilling til at gøre en forskel for dine kollegaer og EGATEC's kunder.

Hvis du brænder for en hverdag i et spændende og udfordrende job med hovedvægt på udvikling af maskiner/anlæg, opfordres du til at søge job hos os. Uanset om du Ingeniør, Programmør, eller Maskinmester, vægter vi din indsats i de daglige løsninger af opgaverne og din indstilling til dine kollegaer højest.

Send din ansøgning & CV på kontakt@egatec.dk allerede i dag -

Samtaler afholdes løbende. Ønsker du yderligere oplysninger, er du velkommen til at ringe til Head Of Engineering, Automation, Tommy Tjørnelund Pedersen (+45) 6161 1068.

EGATEC A/S is seeking Automation Engineer for our Engineering department in Odense.

Your education/ background can be automation technologist, robotics engineer, electrical engineer, programmer, or, e.g., machinist - with knowledge of industrial programming.

- Preferably with knowledge of

- PLC, for example B&R, Beckhoff or Siemens, including Servo & Vision
- Integration with Robots, for example, ABB, KUKA, or similar
- Newly graduated or with several years of experience
- Preferably, you speak one or more foreign languages, as we have customers and suppliers worldwide
- Enjoys both working independently and collaborating in interdisciplinary project teams
- Has good technical/mechatronic knowledge with an understanding of the automation/machine industry
- Has good knowledge of relevant programming tools and the MS Office package

EGATEC A/S are specialists in end-of-line solutions and handling and packaging solutions that integrate machines, robots, automation and vision. Either as individual machines or as entire Turn-Key systems within several exciting industries. EGATEC A/S has since 2003 successfully delivered more than 400 solutions and projects at home and abroad. With an increased focus on international projects, we are experiencing significant growth in our export markets within packaging machines and end-of-line solutions.

Areas of work

Your tasks may include:

- Programming of PLC, HMI, and servo systems, primarily in B&R, Beckhoff, and Siemens
- Integration and programming of robots, e.g., COMAU and Kassow robots, or whichever suits the task
- Run-in, testing, and delivery of systems as well as subsequent support for our customers
- Programming and integrating solutions for general data exchange and logging
- Preparation of documentation and manuals

There can be several entry points and several career paths at EGATEC. For the experienced applicant, you will have the opportunity to work with challenging programming tasks of significant projects in the country & abroad.

For the newly graduated profile, we can ensure a solid introductory course, i.e., we have the opportunity to put together a "trainee course" in the company - so that you get around various PLC, robot, development, programming, and testing tasks. We offer and expect an open & informal atmosphere, with an excellent working climate and flexible working conditions - for which we are jointly responsible. - For this, we want YOU to come in a good mood and attitude to make a difference for your colleagues & EGATEC's customers.

Suppose you are in for an exciting and challenging job where the average day is about developing software, technology, solutions, and for machines and systems. In that case, we encourage you to apply for a job with us. Whether you are an engineer, programmer, or machinist, we value your efforts in the daily solutions to the tasks and your attitude towards your colleagues the most.

Send your application & CV to kontakt@egatec.dk today – Interviews are held on an ongoing basis. If you would like further information, you are welcome to call our Head Of Engineering, Automation - Tommy Tjørnelund Pedersen (+45 61 61 10 68).
