

## Case packer TVHI60

### PACKAGING SYSTEM TRAY VACUUM

### FEATURES

#### Packaging system:

The products are lifted by the means of suction cups and are placed down in a box. This means the products can get into very narrow boxes as the tool is on top of the product.

Products: All types of top sealed and vacuum packed products.

- Fast changeover time with adjustable rails
- Stainless steel
- Empty box infeed from all directions
- Lifting system for gentle drop.
- Rotating system for gentle drop
- Either standalone unit with HMI and PLC or as part of bigger line control
- Machine components from renowned brands- worldwide availability
- Safe, robust, reliable and environment friendly solution
- Remote access and service available-Ready for industry 4.0
